CAREER OBJECTIVE

To secure a challenging position in a reputed organization where I can leverage my technical expertise in AI, Data Science, and software development to deliver impactful solutions and grow as a competent technology professional. Eager to contribute to innovative projects, continuously enhance my technical skills, and create value through teamwork, problem-solving, and continuous learning.

EDUCATIONAL QUALIFICATION

1. B.TECH. in Artificial Intelligence and Data Science from V.S.B. Engineering College, Karur with the CGPA of 8.23 upto VI semester (Batch 2023-2027).
2. HSC from Buds Matric Hr. Sec. School, Oddanchatram, with 75%, (batch 2023).
3. SSLC from Buds Matric Hr. Sec. School, Oddanchatram (Covid Batch 2021).

POSITION HELD

Served as the Robotics Student Coordinator, organizing technical events and robotics activities. Demonstrated leadership, teamwork, and event management while encouraging student participation.

PROJECTS

1. "Intelligent Poaching Detection and Response System" - Developed an AI-powered system using YOLOv8 and Python to detect poaching activities and trigger real-time alerts for wildlife conservation.
2. "Wheel Wise" - Developed a full-stack online car rental platform enabling users to browse, book, and manage vehicle rentals with a seamless and efficient experience.
3. "AI SQL Query Agent" - An AI-powered application that converts natural language questions into SQL queries, enabling users to retrieve database information without writing SQL code.

HACKATHON

1. "Steer Clear" - Smart India Hackathon (Built a smart satellite tracking system to monitor orbital objects and predict potential space collisions. Implemented AI-based risk analysis and real-time visualization for collision avoidance).

ONLINE CERTIFICATIONS

1. "Programming Using Java" - NPTEL, June 2025 (Elite).
2. "Generative AI" - Infosys Springboard, 2025.
3. "Introduction to Artificial Intelligence" - Infosys Springboard, 2025.
4. "Cyber Security Essentials" - Cisco, 2026.

INTERNSHIPS

1. "AI INTERN" - Infosys Springboard (Online) from 28.10.2025 to 20.12.2025.
2. "MERN Stack Intern" - Binary Spots, Coimbatore, India (Full-time) June 05, 2024 - July 04, 2024.

TECHNICAL SKILLS

Java, Python, HTML, CSS, MongoDB, MySQL, AWS Cloud, Git/GitHub, Machine Learning, Object Oriented Programming Language, Adobe XD, Figma, Canva

LANGUAGES KNOWN

Tamil, English.
